我們承諾以客人成功為本，重點增加現金流速及利潤最大化。

DataDevelop Consulting Ltd. is a result-oriented TOC management consulting firm, specializes in providing Theory of Constraints (TOC), Lean, Six Sigma TLS synergy, SCOR modeling methodology and ERP Performance Recovery & Acceleration services.

Over the last 20 years, we have successfully established many improvement projects through TOC projects, ERP implementations for practical bottom-line improvement in different industries.

We are committed to help our customer to succeed by increasing cash flow velocity and by maximizing their profitability.

我們專注純利倍增及成效為本

Our focus is "Solution for Profits, Satisfaction by Results"

親愛之客戶！我們知道其它顧問公司也提供多樣之改善方法，但很少能得到切實之效果。

它讓所有風險放在客人身上及令客戶(您)抗拒雇用顧問公司。所以我們特別提供一個免費兩小時評估會議，對決策者作初步調研訪問。

Dear Customer, there are many other consultants offering various improvement programs with rarely tangible results.

This puts all risks on you and causes you to resist hiring a consultant. So, we are going to offer a free 2 hours assessment.

在這兩小時，我們一起決定決策者認同之成功條件及大部份收費由條件達到後才收取。
In this 2 hours, we will work together to determine your criteria for success and the majority of our fees will be paid if the criteria are met.

在這兩小時後，如客戶需要我們幫忙，如最高90%費用由大家認同之成功條件達到後才收取。
After the free 2 hours meeting, if you would like to accept our offer, up to 90% of our consultant fees are paid according to meeting the mutually agreed criteria.

因為我們是成效為本之顧問公司，我們會確保起初之行動產生快速堅固之結果，這確保整家企業有認同感。
Because we do the results-based consulting, we ensure the first step(s) we take provide quick substantial results. This ensures buy-in throughout your organization.

有哪些大企業採用TOC? 有什麼實質成果?

Which global companies have implemented TOC improvement methodology? What are their actual results?

TOC在世界各地推行多年，採用者包括通用汽車、波音、高露潔、P&G、AT&T、3M、Intel、Philips 甚至包括美國軍方。經過學術界的追縱研究，在全球400多個實施TOC個案後，達致右方圖表的績效改善：

For the past few decades, many global companies have implementations using the TOC methodology including General Motors, Boeing, Colgate, P&G, 3M, Intel, Philips, and United States Air Force. The world wide academic community has been following and studying these 400 more TOC implementations and come up with the following conclusions:
